**Definitions:**

**Increased Total Household Resources from Non-Employment Sources** – this could refer to such things as: a move of a job to one closer to home which reduces travel costs; securing benefits such as tax credits, child support, SSI; or other increases which you may wish to define.

**Completed goals on their case management plan in order to move toward self-sufficiency** – this should refer specifically to the individual/family movement toward employment and self sufficiency, and not to their increased potential or to strengthen supportive systems.

**Maintained independence** – this could refer to a range of outcomes for individuals of various ages, characteristics, or circumstances. Outcomes associated with participation in treatment programs, alternatives to incarceration or institutionalization, Family Care Giver programs or other programs that enable families/individuals to achieve a measure of self-sufficiency should be reported here. Provide outcome, indicator and description in narrative comments.
